

ASSIGNMENT

HALL TICKET NO	0225046023
NAME OF THE STUDENT	KONGARA PRAKASH
LEARNING TRACK	DATA ANALATICS WITH TABLEAU

Sheet 1: Area chart

Step 1: Open a new blank sheet in Tableau.

Step 2: Drag Order Date to the Columns shelf.

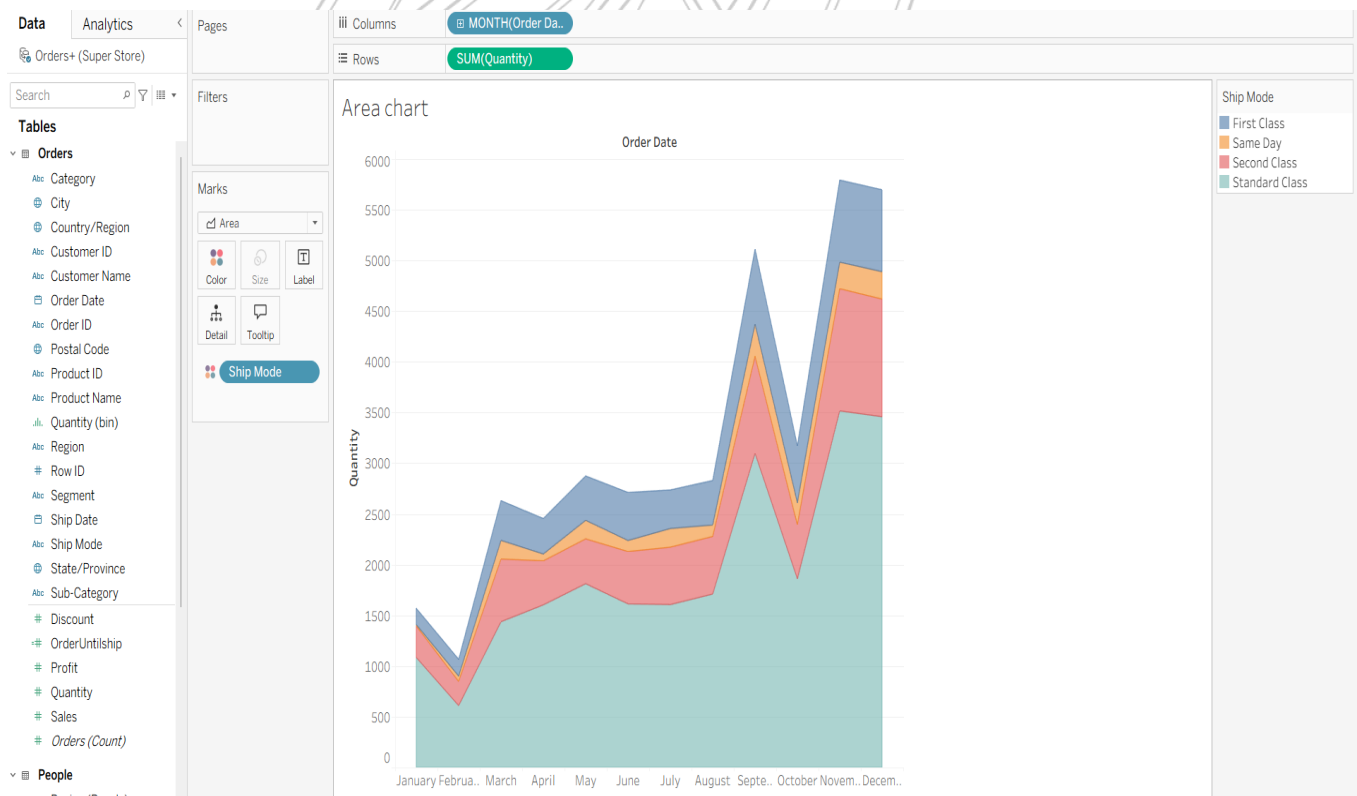

Step 3: Right-click YEAR (Order Date) on the Columns shelf and select Month.

Step 4: Drag Quantity to the Rows shelf.

Step 5: Drag Ship Mode to Color on the Marks card.

Step 6: On the Marks Card, click the drop-down menu and select Area.

Out put :

Sheet 2: bar chart

Step 1: Drag Sales to the Rows shelf.

Step 2: On the *Marks Card, click the drop-down menu and select Bar.

Step 3: Drag Ship Mode to Color on the Marks card.

Step 4: Drag Region to the Rows shelf (place it to the left of Sales).

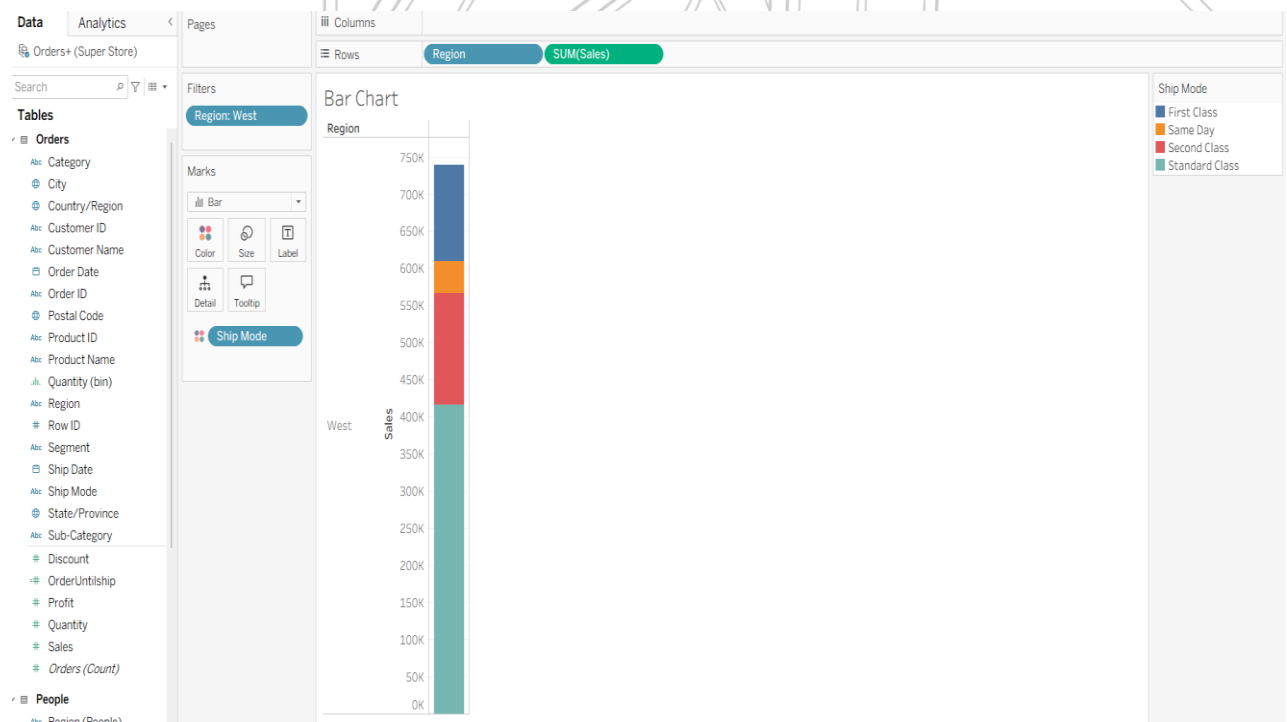

Step 5: Drag Region again and drop it into the Filters shelf.

Step 6: In the Filter dialog box, uncheck Central, East, and South.

Step 7: Keep only West checked.

Step 8: Click OK.

Out put:

Sheet 3: Box Plot

Step 1: Drag Segment to the Columns shelf.

Step 2: Drag Discount to the Rows shelf.

Step 3: Click the Discount pill on the Rows shelf, hover over Measure (Sum), and change it to Average.

Step 4: Drag Region to the Columns shelf (place it to the right of Segment).

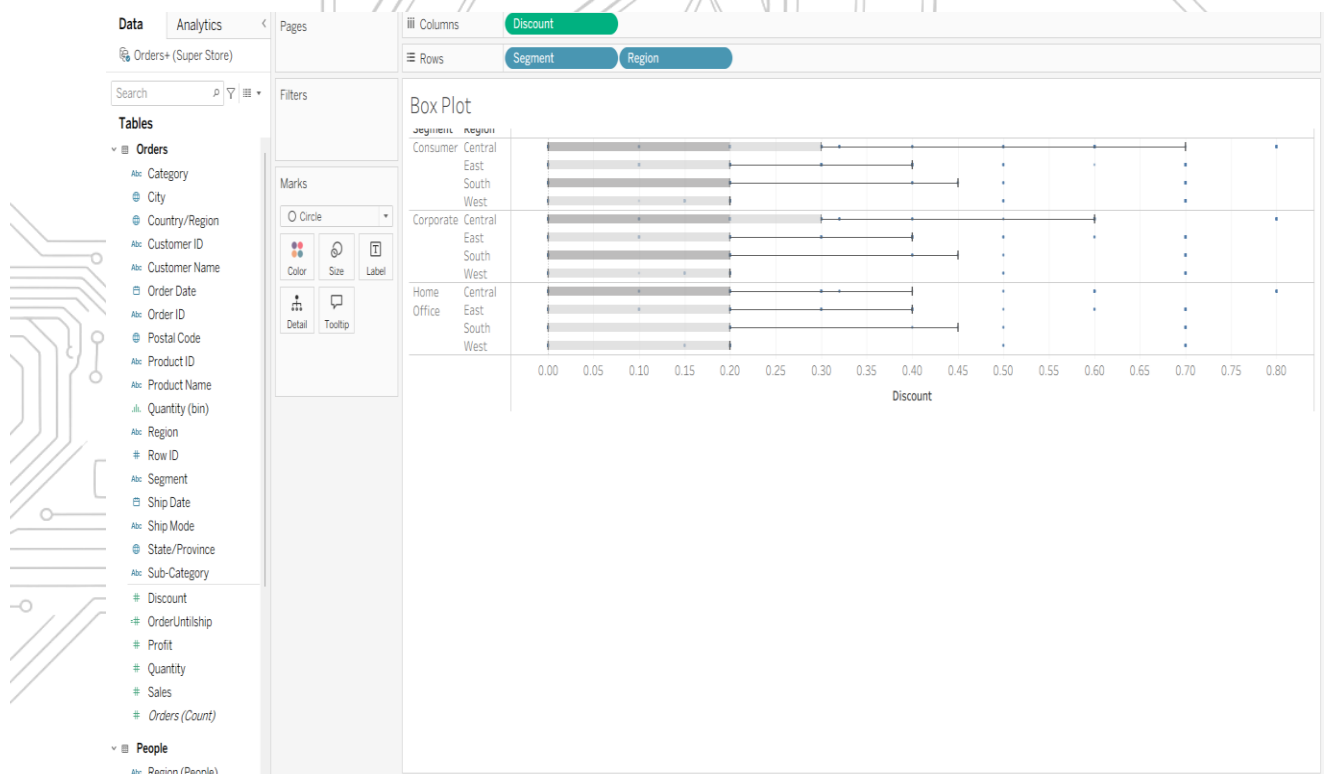

Step 5: Click Show Me in the top right toolbar and select Box-and-Whisker Plot.

Step 6: Drag Region from the Marks card back up to the Columns shelf (to the right of Segment).

Step 7: Go to the top Analysis menu and uncheck Aggregate Measures.

Step 8: Click the Swap Rows and Columns button in the toolbar (or press "Ctrl + W") to change to a horizontal view.

Out Put:

Sheet 4: Gantt chart

Step 1: Drag Order Date to the Columns shelf.

Step 2: Click the drop-down arrow on YEAR(Order Date), go to More, and select Week Number.

Step 3: Drag Sub-Category to the Rows shelf.

Step 4: Drag Ship Mode to the Rows shelf (place it to the right of Sub-Category).

Step 5: On the Marks Card, click the drop-down menu and select Gantt Bar.

Step 6: Click the top Analysis menu and select Create Calculated Field.

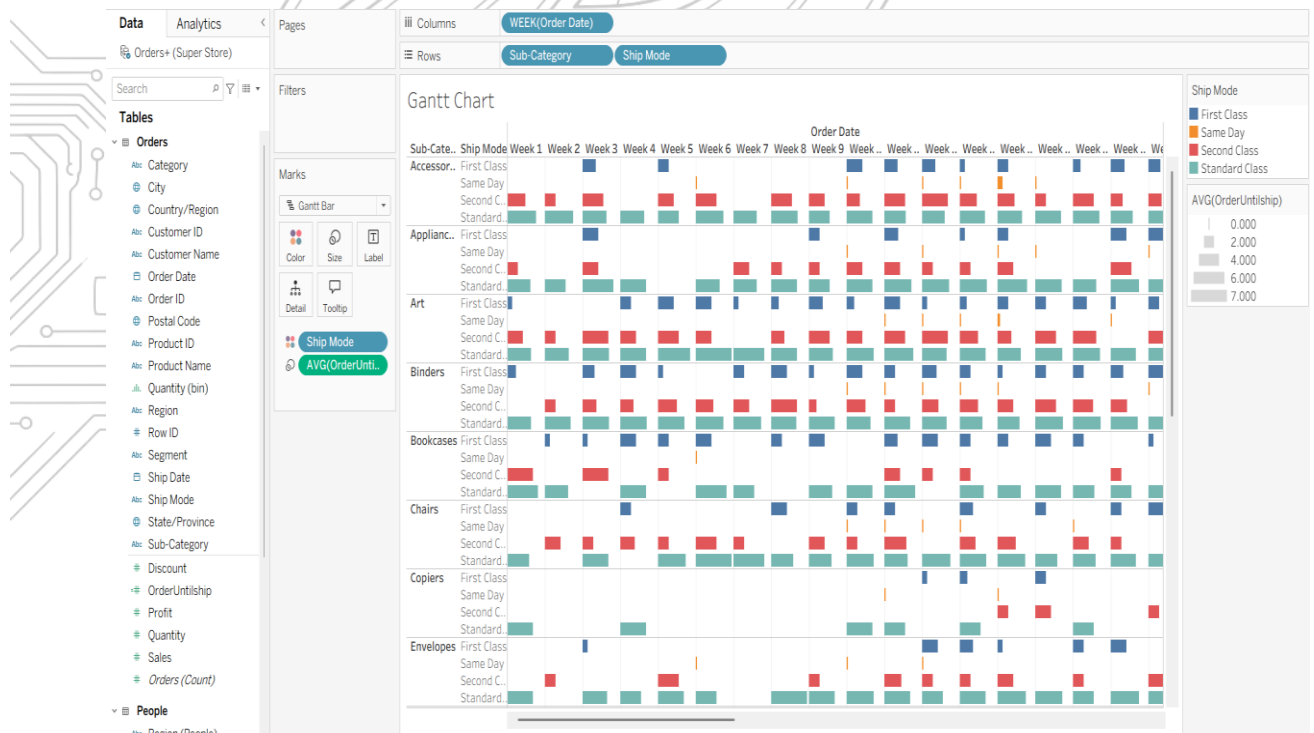

Step 7: Name it "Order Until Ship", type the formula "DATEDIFF('day', [Order Date], [Ship Date])", and click OK.

Step 8: Drag your new Order Until Ship field to Size on the Marks card.

Step 9: Right-click SUM(Order Until Ship) on the Marks card, hover over Measure, and select Average.

Step 10: Drag Ship Mode to Color on the Marks card.

Out put:

Sheet 5 : Hent map

Step 1: Drag Segment to the Columns shelf.

Step 2: Drag Region to the Rows shelf.

Step 3: Drag Sub-Category to the Rows shelf (place it to the right of Region).

Step 4: Drag Profit to Color on the Marks card.

Step 5: Click the Color button on the Marks card, and under Border, choose Medium Gray.

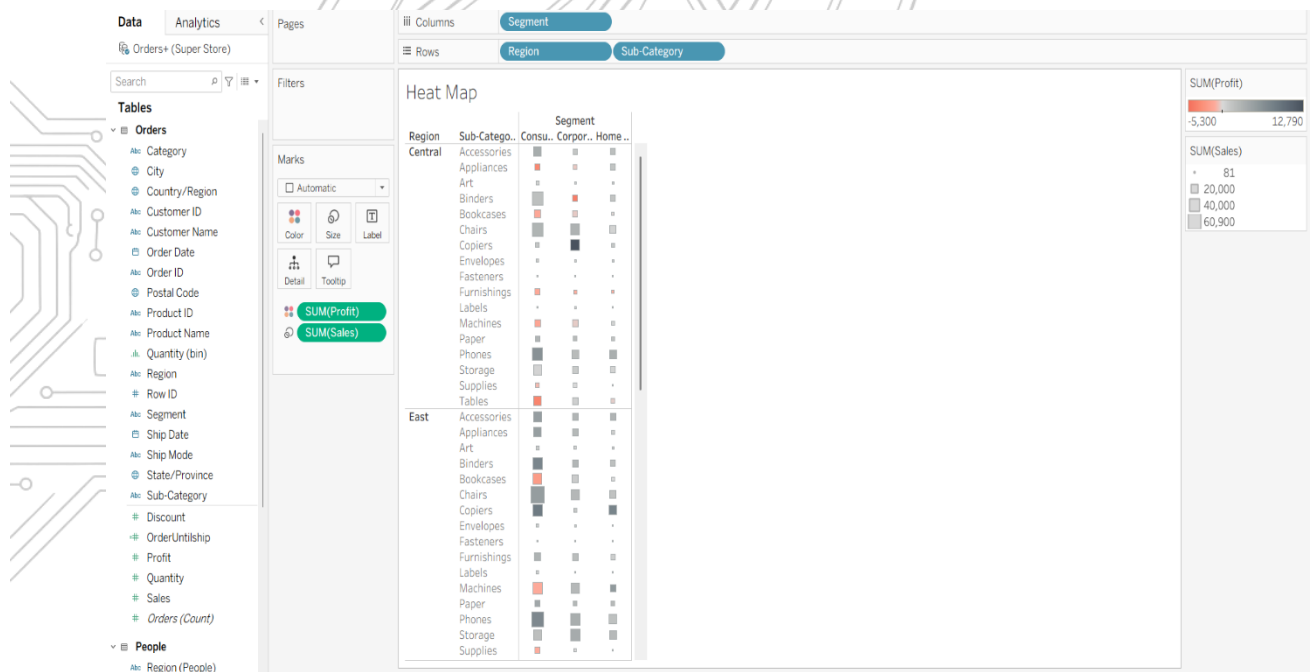

Step 6: On the Profit color legend (top right), click the drop-down arrow and select Edit Colors.

Step 7: Change the Palette to *Red-Black Diverging, check Use Full Color Range, and click OK.

Step 8: Drag Sales to Size on the Marks card.

Step 9: Click the Size button on the Marks card and move the slider to the right until the boxes fit properly

Out put:

Sheet 6: Histogram

Step 1: Drag Quantity to the Columns shelf.

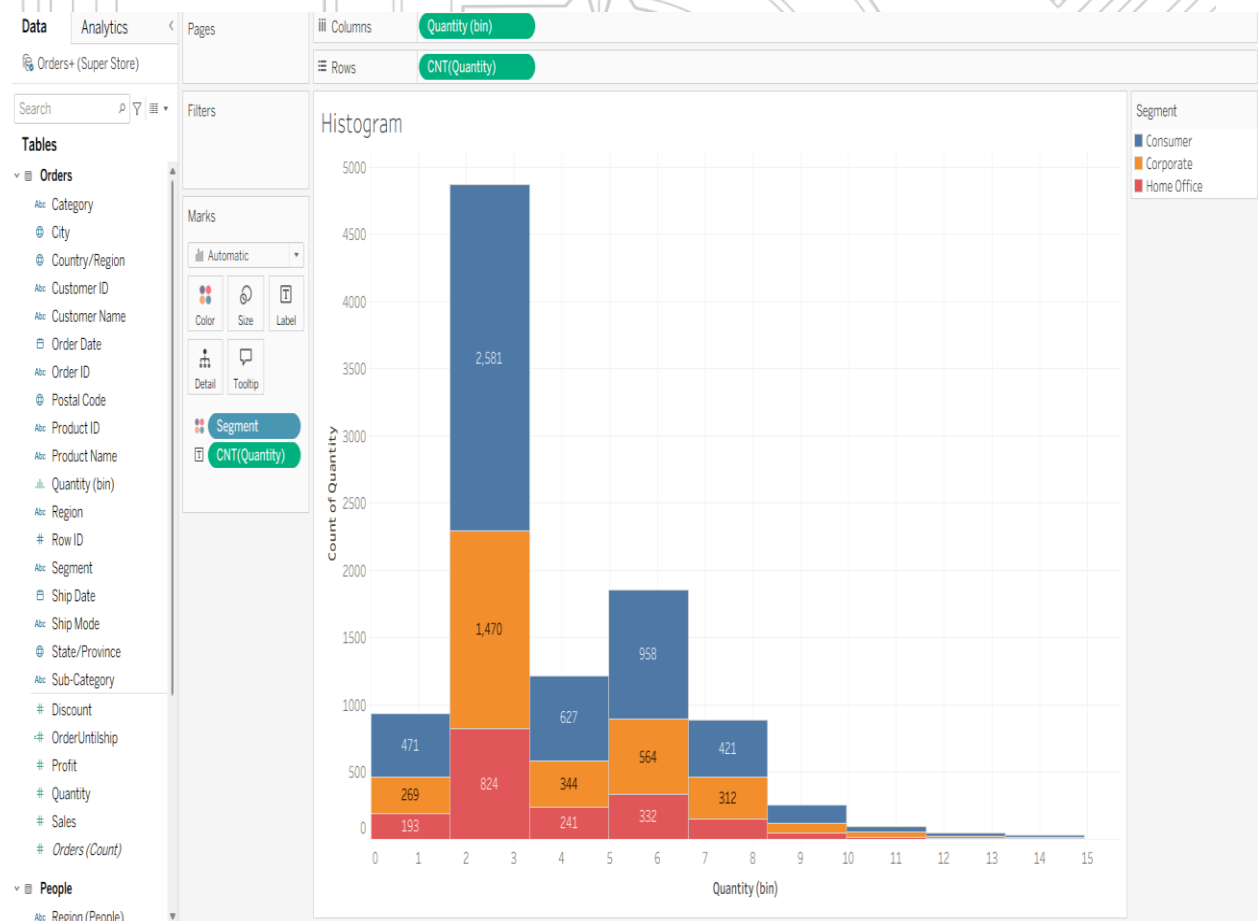

Step 2: Click Show Me (top right corner) and select the Histogram icon.

Step 3: Drag *Segment to Color on the Marks card.

Step 4: Hold Ctrl (or Cmd on Mac), click the CNT(Quantity) pill on the Rows shelf, and drag a copy of it onto *Label* on the Marks card.

Step 5: Right-click the CNT(Quantity) pill inside the Marks card and select Quick Table Calculation right arrow Percent of Total

Out put:

Sheet 7: Line chart

Step 1: Drag Ship Date to the Columns shelf.

Step 2: Drag Sales to the *Rows shelf.

Step 3: Drag Profit to the Rows shelf (place it to the right of Sales).

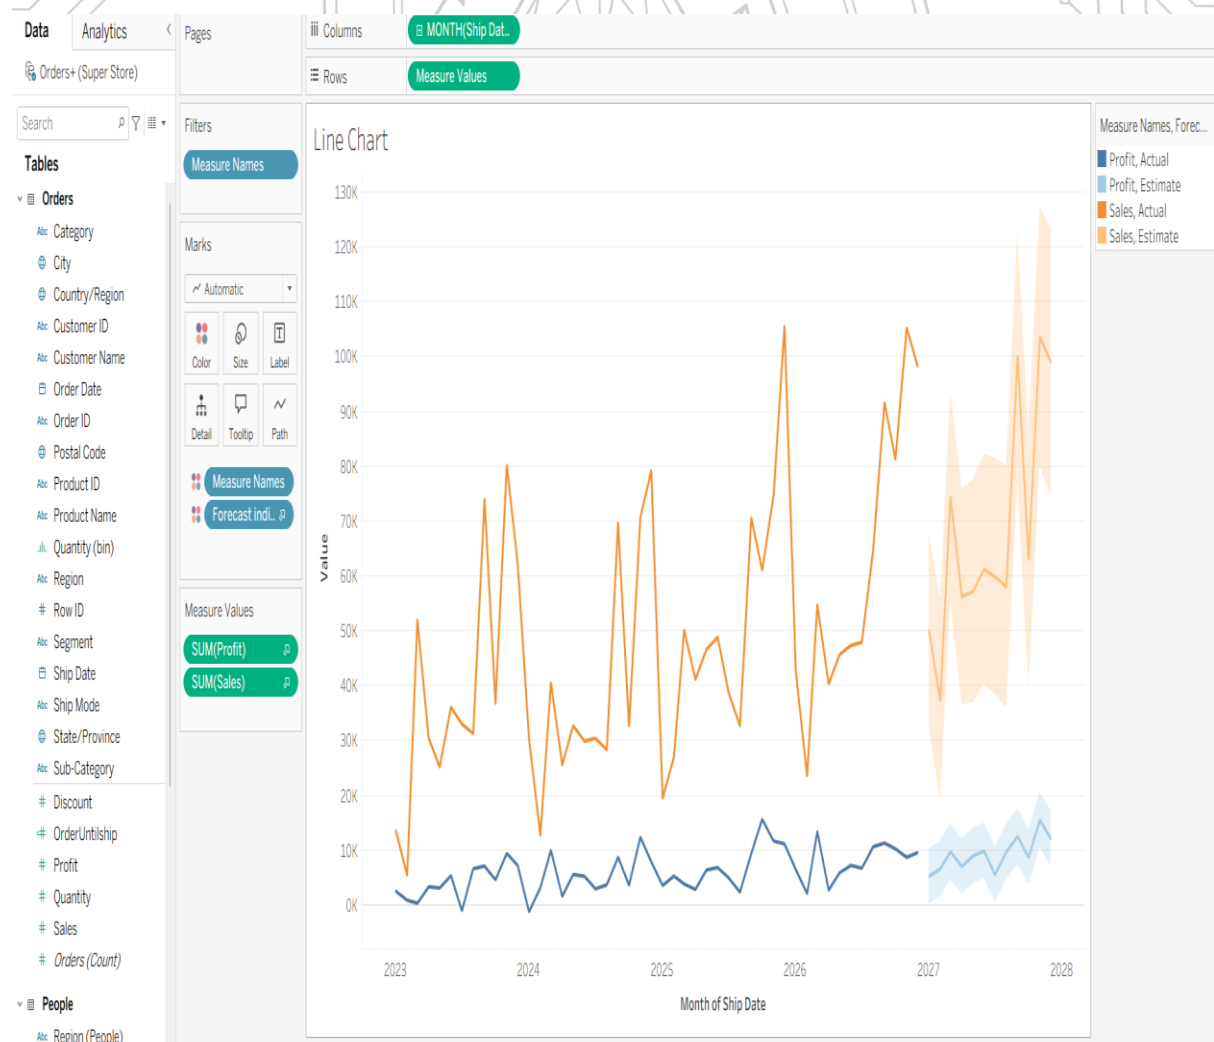

Step 4: Drag SUM(Profit) from the Rows shelf and drop it directly onto the Sales Axis on the chart grid to blend them.

Step 5: Click the drop-down arrow on the YEAR (Ship Date) pill on the Columns shelf and select Month (from the lower continuous section).

Step 6: Switch from the Data Pane to the Analytics Pane on the left side of the screen.

Step 7: Drag Forecast and drop it directly into the chart area.

Out put:

Sheet 8: Packed bubble chart

Step 1: Drag Category to the Columns shelf.

Step 2: Drag Sales to the Rows shelf.

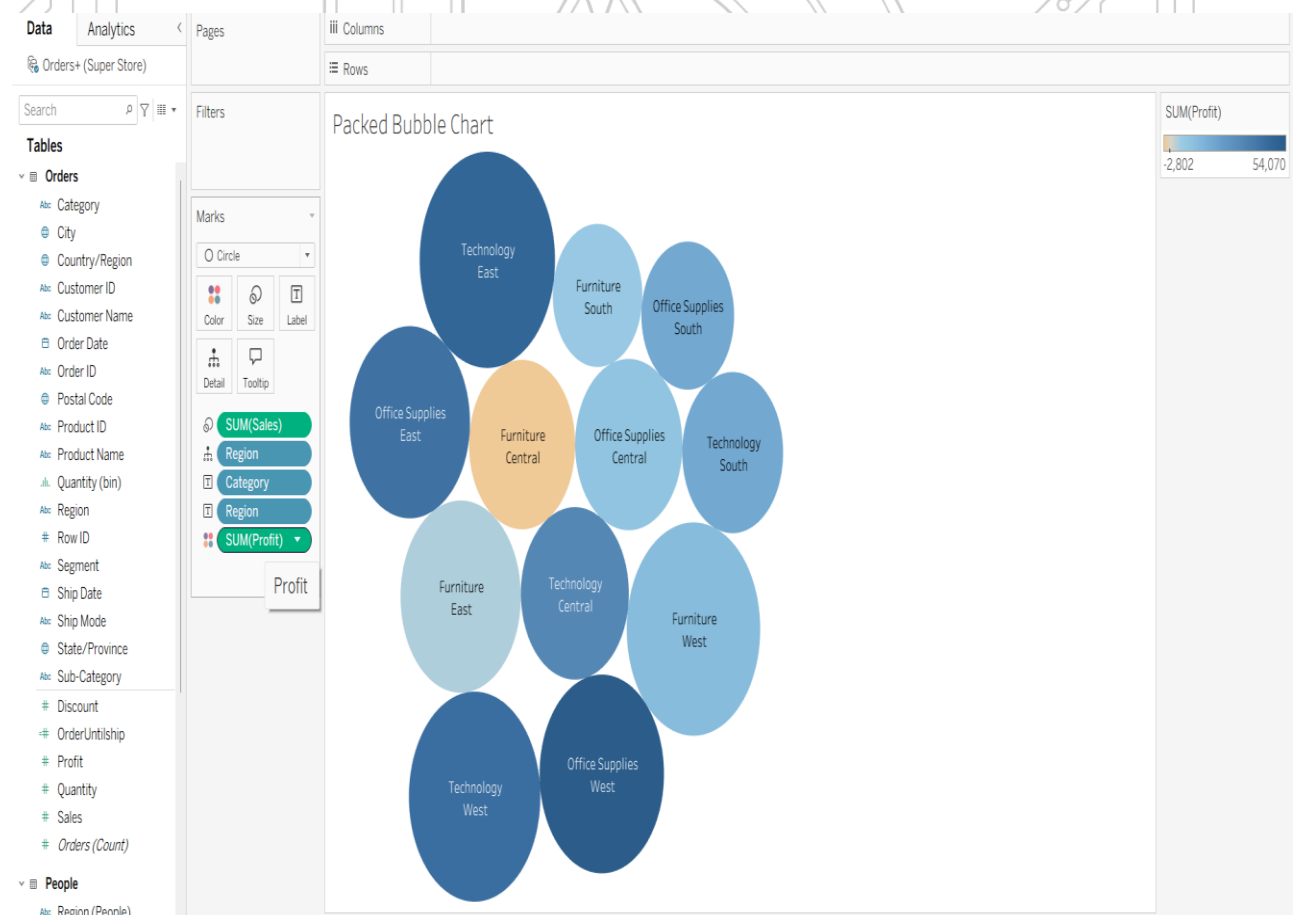

Step 3: Click Show Me (top right corner) and select the Packed Bubbles icon.

Step 4: Drag Region to Detail on the Marks card.

Step 5: Drag Profit to Color on the Marks card.

Step 6: Drag Region to Label on the Marks card.

Out put:

Sheet 9: Pie chart

Step 1: Drag Profit to the Columns shelf.

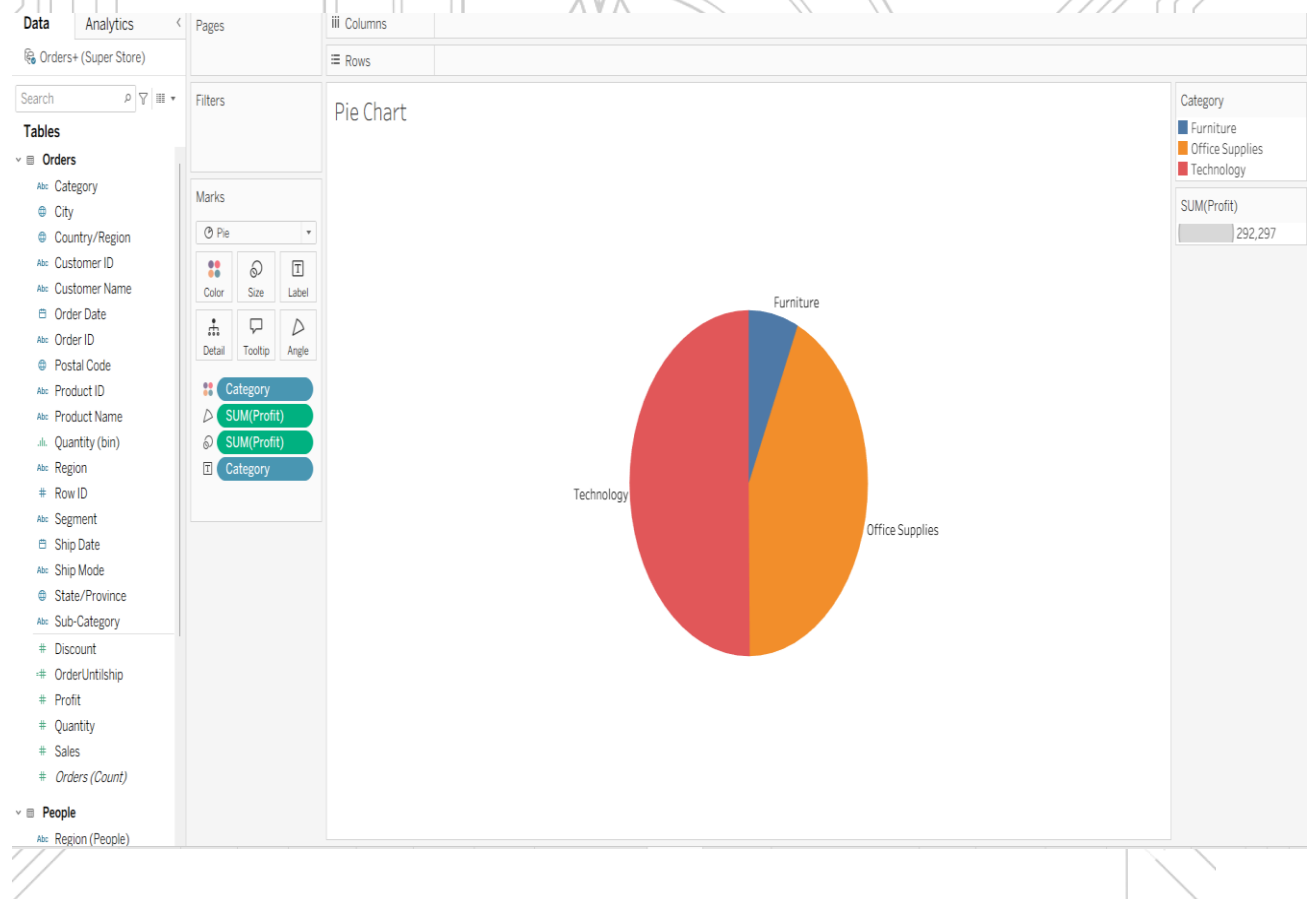

Step 2: Drag Category to the Rows shelf.

Step 3: Click Show Me (top right corner) and select the Pie Chart icon.

Step 4: On the top toolbar, click the Fit drop-down menu (which usually says Standard) and select Entire View (or click Size on the Marks card and move the slider to the right).

Step 5: Drag Category to Label on the Marks card.

Out put:

Sheet 10 : Scatter plot

Step 1: Drag Sales to the Columns shelf.

Step 2: Drag Profit to the Rows shelf.

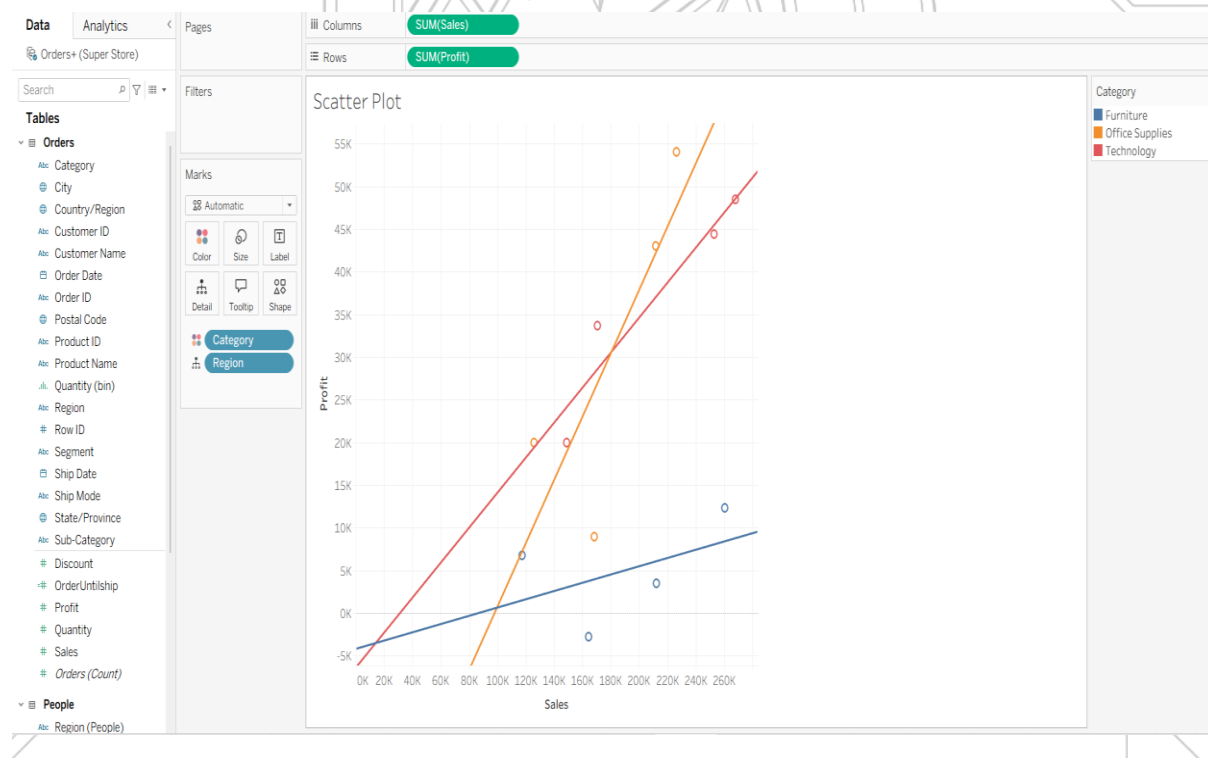

Step 3: Drag Category to Color on the Marks card.

Step 4: Drag Region to Detail on the Marks card.

Step 5: Switch from the Data Pane to the Analytics Pane on the left side of the screen.

Step 6: Drag Trend Line and drop it directly onto the chart area.

Out put:

Sheet 11: Test Table with Percentages

Step 1: Drag *Order Date to the Columns shelf.

Step 2: Drag Sub-Category to the Rows shelf.

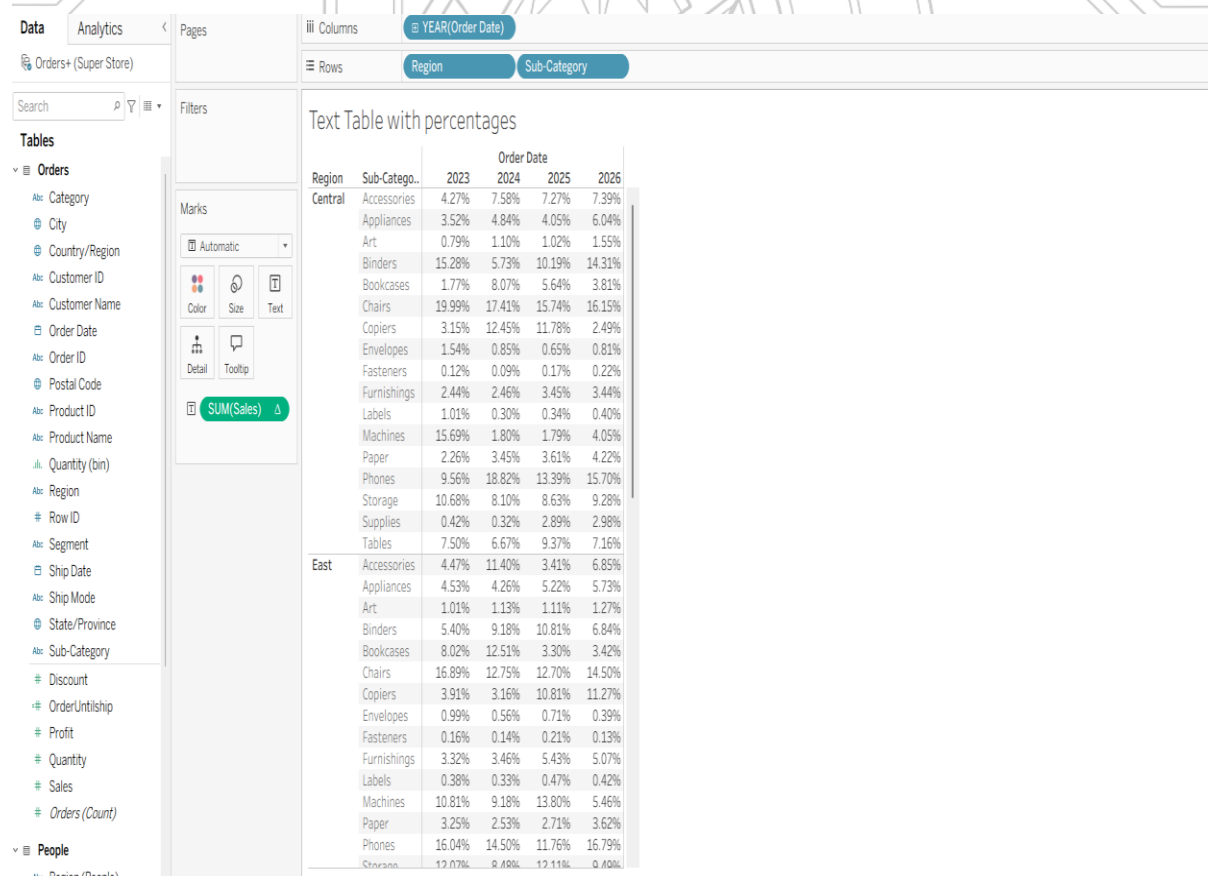

Step 3: Drag Sales to Text on the Marks card.

Step 4: Drag Region to the Rows shelf (place it to the left of Sub-Category).

Step 5: Right-click SUM(Sales) on the Marks card and select Add Table Calculation.

Step 6: In the configuration window, set the Calculation Type to *Percent of Total, set Compute Using to Pane (Down), and close the box.

Out put:

The screenshot shows the Tableau interface with the following configuration:

- Columns shelf:** YEAR(Order Date)
- Rows shelf:** Region, Sub-Category
- Marks card:** SUM(Sales) (Table Calculation: Percent of Total)

The resulting table is titled "Text Table with percentages" and displays the following data:

		Order Date			
Region	Sub-Catego..	2023	2024	2025	2026
Central	Accessories	4.27%	7.58%	7.27%	7.39%
	Appliances	3.52%	4.84%	4.05%	6.04%
	Art	0.79%	1.10%	1.02%	1.55%

	Storage	12.07%	8.88%	12.11%	0.00%

Sheet 12: Tree map

Step 1: Drag Sub-Category to the Columns shelf.

Step 2: Drag Sales to the Rows shelf.

Step 3: Click Show Me (top right corner) and select the Tree map icon.

Step 4: Drag Ship Mode to Color on the Marks card.

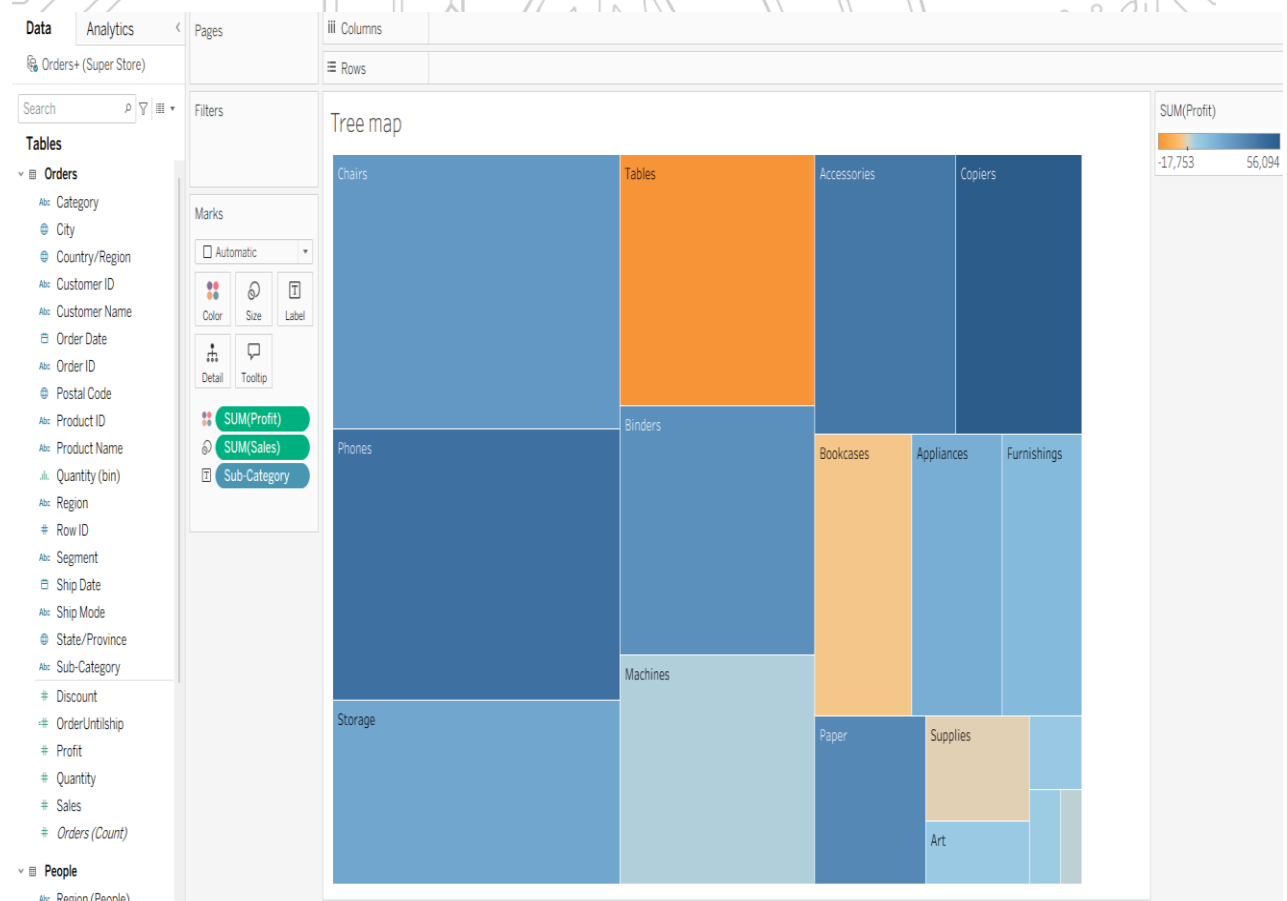

. Alternative View (Profit Color)

.If you want to see profit instead of shipping modes:

Step 5: Press Ctrl + Z (or Cmd + Z on Mac) to undo and remove Ship Mode.

Step 6: Drag Profit to Color on the Marks card.

Out put:

Sheet 13: Donut chart

Step 1: Click the top Analysis menu, select Create Calculated Field, name it “Zero”, type “0” in the formula area, and click OK.

Step 2: Drag Zero to the Rows shelf.

Step 3: On the Marks Card, click the drop-down menu, select Pie, and then change the view setting on the top toolbar from Standard to Entire View.

Step 4: Click Size on the Marks card and move the slider to the right to make the pie larger.

Step 5: Drag Zero to the Rows shelf a second time (place it to the right of the first one).

Step 6: Right-click the second SUM(Zero) pill on the Rows shelf and select Dual Axis.

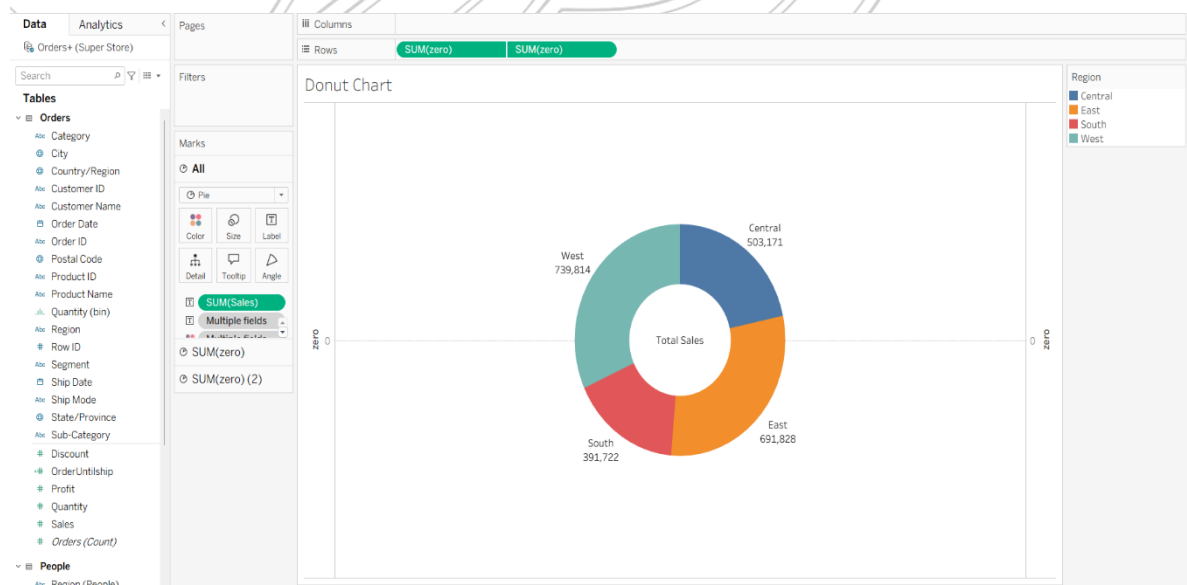

Step 7: On the Marks card, click the second SUM(Zero) section, click Size to make it slightly smaller, then click Color and select White.

Step 8: Click the first SUM(Zero) section on the Marks card, then drag Region to Color, Region to Label, Sales to Label, and Sales to Angle.

Step 9: Click the second SUM(Zero) section on the Marks card and drag Sales to Label.

Step 10: Click Label\$right arrow\$Text (click the three dots “...”), type “Total Sales:” right above the number field, and click OK.

Output:

Sheet 14: Map chart

Step 1: Drag State from the Data pane and drop it directly onto the empty center workspace area.

Step 2: Drag Sales to Color on the Marks card.

Step 3: On the Marks Card, click the drop-down menu and change it from Automatic to Map (or Filled Map).

Step 4: Click Color on the Marks card, select Edit Colors, choose the Purple palette, and click OK.

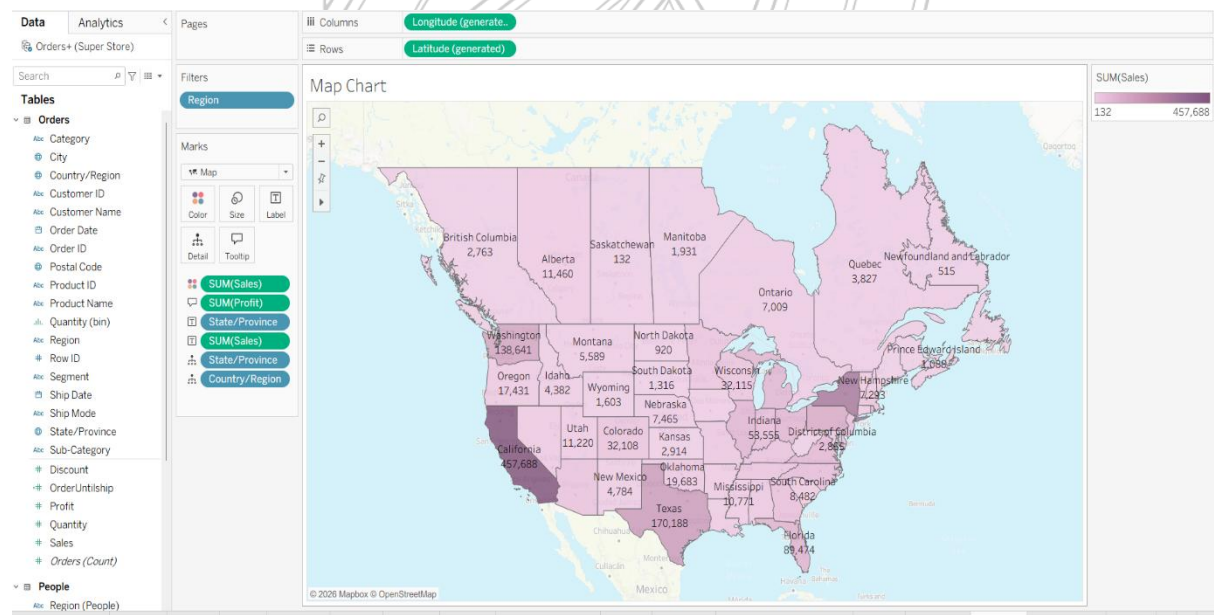

Step 5: Drag State to Label and Sales to Label on the Marks card.

Step 6: Drag Region to the Filters shelf, check All, and click OK.

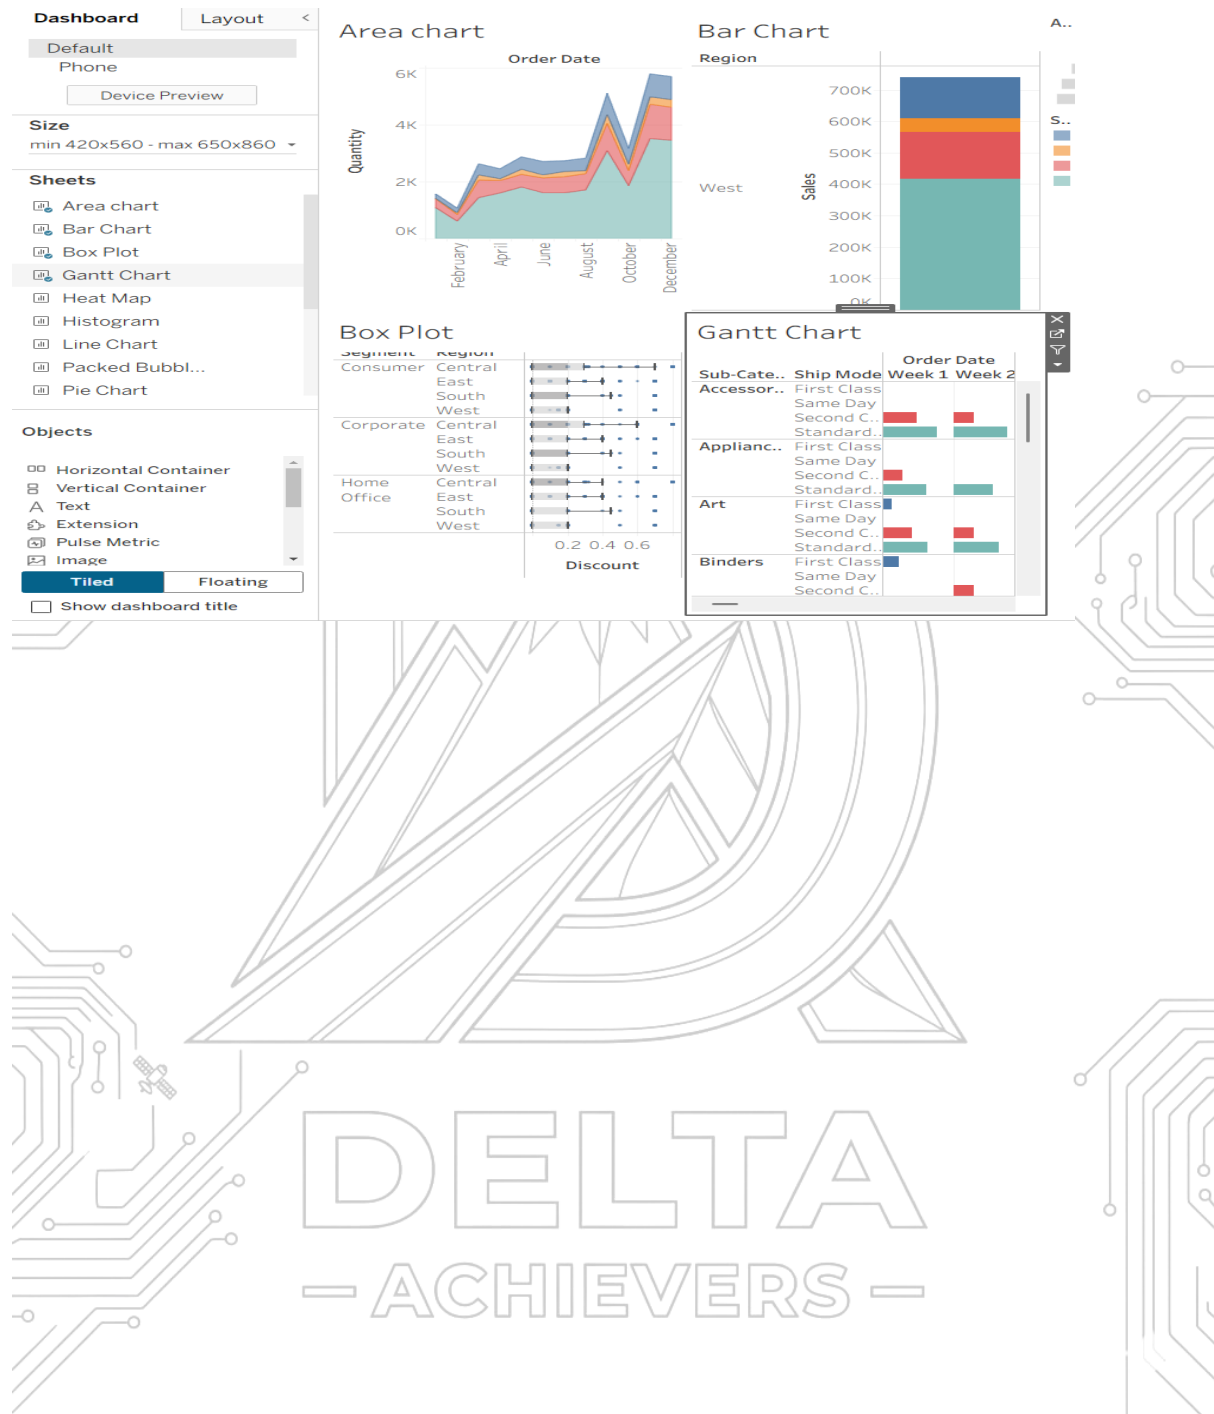

Step 7: Drag Profit to Tooltip on the Marks card.

Step 8: Go to the top menu bar, click Map $\rightarrow$ Map Layers, change the Background style to Outdoors, and set the Washout to 70%
